

# ECHODECO® SLIDING TRACK PANELS

Price Effective - April 14, 2025

## DIVIDE ROOMS, DOORS, ENTRYWAYS AND WINDOWS

Our new acoustic EchoDeco® Sliding Track Panels for rooms, doors, entry ways and windows are stylish and effective. Wall, ceiling or overhead mounted, sliding panels with sound absorbing material, create separation and division while quieting your space.

EchoDeco® Sliding Track Panels offer the versatility of ceiling or overhead mounting as well as wall mounting and can incorporate up to 5 panels on one track. Other mechanical options for your sliding panel solution include how the panels collapse and slide open.

The next step is to design your panels. Choose from 26 colors of our NRC rated acoustic EchoScape material; add a design cut-out on your panels or back the cut-out panel with a solid panel. Another option is to start with a solid panel then add a design pop-out on top.

- Available with ceiling, overhead or wall mounting
- Incorporate up to 5 panels on one track
- Choose how panels collapse and slide open
- EchoDeco Wall Tile thickness - 3/8" (9mm) with NRC rating of 0.85
- Available in 26 colors and several design options
- Custom designs available
- Made in the USA
